ANASTASIIA KOSHUTSKA

Fullstack Developer

SUMMARY

I am a junior Fullstack developer with strong analytical skills and knowledge of HTML, CSS, JavaScript, React, Next.js and Node.js.
I have practical experience using Agile/Scrum methodologies to successfully deliver projects on time.
The ability to focus on details, stress resistance and time management are also my strengths.
I am a fast learner, punctual, responsible and always ready for challenges.

PROJECT EXPERIENCE

RecipeBook, *GitHub-repository* (Next.js, React, TypeScript, CSS Modules, Axios, Zustand, Formik, Yup, TipTap, React Paginate, React Hot Toast, React Spinners)
RecipeBook is a full-stack recipe application built with Next.js and React.
It is designed as a personal recipe collection with authentication, recipe management, favorites, rich-text recipe editing, search, filtering, pagination, responsive layouts, and SEO support.

RecipeBook-Backend, *GitHub-repository* (Node.js, Express, MongoDB, Mongoose, Joi/Celebrate, JWT, bcrypt, Multer, Nodemailer, sanitize-html, Pino, Cloudinary, Swagger, Render)
Backend API for the RecipeBook application.
It provides authentication, user profile management, recipe CRUD operations, saved recipes, image uploads, password reset endpoints, validation, sanitization, and *Swagger API documentation*.

ReGarden, *GitHub-repository* (HTML5, CSS3, JavaScript, Swiper, Vite, Figma)
A responsive commercial landing page for a mobile game that combines Match-3 mechanics with garden restoration and customization. The project was developed by a team of two developers and a UI/UX designer. As a Front-End Developer, I implemented the Features, Reviews, FAQ, How to Play, Gallery, and Footer sections.

WORK EXPERIENCE

2020 - 2022

Integration Specialist
Proxima Research International

- Communication between clients and IT specialists on database integration issues.
- Integrated multiple systems (CRM, APIs, databases) to ensure seamless data flow and consistency
